PROFESSIONAL SUMMARY
Innovative Machine Learning Engineer and Data Scientist with over 3 years of hands-on expertise in predictive modeling, Natu

TECHNICAL SKILLS
Languages & Analytics: Python, SQL, R, Pandas, NumPy, Scikit-Learn, SciPy
AI / ML & Deep Learning: PyTorch, TensorFlow, Keras, Hugging Face, Transformers, NLP, Computer Vision, OpenCV, LLMs
Data Visualization & BI: Matplotlib, Seaborn, Tableau, Power BI
Databases & Cloud: PostgreSQL, BigQuery, Docker, Git, Linux, FastAPI, AWS

WORK EXPERIENCE
Machine Learning Engineer | DataCore Analytics | New York, NY
January 2022 - Present
- Engineered an NLP sentiment classification engine using Hugging Face Transformers and PyTorch, improving customer inte
- Developed automated data preprocessing and feature extraction pipelines with Pandas and Scikit-Learn handling 10M+ rows
- Deployed machine learning models as containerized REST microservices using FastAPI and Docker, achieving sub-40ms in
- Partnered with product and engineering teams to translate business requirements into quantitative ML experiments.

Data Science Intern | Quantum Insights | Boston, MA
June 2021 - December 2021
- Conducted exploratory data analysis and hypothesis testing across 500K+ transactional records to identify customer churn d
- Built predictive churn classification models using XGBoost and Scikit-Learn, generating an estimated in customer retention v
- Designed interactive executive dashboards in Tableau and Matplotlib to present weekly predictive insights to stakeholders.

EDUCATION
Master of Science in Data Science | Columbia University, New York | 2020 - 2022
Bachelor of Technology in Computer Science | Delhi Technological University | 2016 - 2020 | CGPA: 9.1 / 10

KEY PROJECTS
MediScan AI - Medical Image Classifier | PyTorch, OpenCV, Flask, Docker
- Trained a Convolutional Neural Network (CNN) on medical imagery achieving 96% diagnostic sensitivity.
DocuSummarize - Document Analysis & QA Tool | Python, LangChain, RAG, Hugging Face
- Implemented an intelligent document summarization pipeline leveraging retrieval-augmented generation.

CERTIFICATIONS
- TensorFlow Developer Certificate (Google)
- Deep Learning Specialization (DeepLearning.AI)
